

Digital Learning Framework

Sample Focus Group Prompts

Standard 1.2: Students have the necessary knowledge, skills and attitudes required to understand themselves and their relationships.

For Teachers

- How do digital technologies support student self-reflection or emotional expression in your classroom?
- Have you observed students using digital tools to better understand themselves or build relationships with peers?
- In what ways do you see digital collaboration contributing to social learning and communication skills?

For Students

- Have you ever used technology to learn more about yourself, like your goals or feelings?
- Tell us about a time when a digital activity helped you work better with other students.
- How does technology help you share your ideas or understand others in your class?
