

Digital Learning Framework

Sample Focus Group Prompts

Standard 2.3: Students reflect on their progress as learners and develop a sense of ownership of and responsibility for their learning.

For Teachers

- How do you use digital technologies to support student reflection and responsibility?
- Have you seen changes in how students manage their learning with access to digital tools?
- What kinds of digital tasks promote independent thinking and self-management?

For Students

- What tools do you use to think about your progress or set learning goals?
- How does using technology help you take responsibility for your work?
- Can you share a time when you improved your work because of digital feedback or reflection?
