

Digital Learning Framework

Sample Focus Group Prompt Questions

Standard 1.1: Promote a culture of improvement, collaboration, innovation and creativity in learning, teaching, and assessment

Focus group prompts for teachers and school leaders

- Does the school have a Digital Learning Plan that is familiar to all teachers and is updated at least annually?
- How does school leadership encourage teachers to integrate digital technologies into their learning, teaching, and assessment practices? If so, how?
- In what ways do staff members share their experiences and best practices regarding digital technology use?
- Is digital technology use consistent across the school or are there pockets of limited use/extended use?
- How does the school's vision set out in the Digital Learning Plan reflect the potential of digital technologies to enhance learning, teaching, and assessment?
- Are teachers supported to engage in innovative initiatives e.g. Safer Internet Day, EU Code Week, STEM Week etc?
- How are policies and practices developed and led to effectively support technology integration within the school?
- What strategies are used by school leaders to promote innovation and creativity through the use of digital technology?
- How is the impact of digital technology on learning, teaching, and assessment evaluated as part of the school's self-evaluation process?
- How is the school preparing for the implementation of the 2025 STEM Curriculum?
