

Digital Learning Framework

Sample School Leader Reflection Prompts

Standard 4.2: Empower staff to take on and carry out leadership roles.

School Leader Reflection Prompts

1. A Digital Learning Team is in place to facilitate distributed leadership of digital technologies in our school.
2. The relevant post of responsibility holder reports at staff meetings on updates in relation to digital technologies.
3. Teacher professional learning needs in relation to technology are catered for in school time/Croke Park hours.
4. Opportunities are created for teachers to co-teach when introducing new technologies or pedagogies.
5. Teachers are encouraged to join technology teacher professional networks.
6. Teachers are encouraged to share digital tools and resources with one another informally and at identified times during staff meetings.
7. Teachers who engage in professional learning in their own time (e.g. webinars, workshops, Masters) are facilitated to feed back any new learning to colleagues during meetings.
8. Staff are facilitated to engage in professional learning in the form of short online courses where appropriate.
9. Mechanisms are in place for recording and troubleshooting of technical issues.
10. Technical issues are acted upon as swiftly as possible to minimise disruption to classroom activities.
11. Opportunities for critical discussion of technology and associated challenges are facilitated.
